

Edu platforms: pros and cons

Platform 01

Moodle

Pros

Activity completion conditions
Zero cost. The platform is free.
Compatible with any browser.
Very customizable. As it is an open source platform it allows many customization options.

Cons

Additional

It can sometimes be difficult to use. 2
Fragile security. 1
Poor design https://docs.moodle.org/311/en/Managing_badges#/media/File-BadgesDisplay.png
The more students access the platform, the slower the system becomes. 3
User installation of plug-in and integration into the system is required 3

Platform 02

Google classroom

Pros

Clean and user-friendly interface.
Great commenting system.
Easy to use and accessible from all devices.

Cons

Additional

No Calendar intergrated 2
No automated updates. 3
No way to have a live chat 2
Editing problems. When you create an assignment and you distribute it to learners, learners become "owners" of the document and they are allowed to edit it.

Platform 03

CopyLeaks

Pros

Military-grade 256-bit encryption for Data Safety
Identify plagiarized Meaning of the text
100+ languages available

Cons

Additional

Not free 3
DEPLOYMENT <https://www.capterra.com/p/185429/Copyleaks/>
No grammar error detector. 5

Platform 03

Easy Makten

Features

Calendar intergrated
Grammar error detector.
Automated updates.
Clean and user-friendly interface.
Timer set for time management
Plagiarism detector
Grammar error detector.
